Open the Start menu and type "services.microsoft.com" and find the entry named "Language Options". On the main system page, switch your language setting to English. If you still don't see any progress, then it may indicate that your language setting isn't being applied properly. You might be prompted to try setting your language manually, at which point you'll need to make any necessary changes to your language settings. There are several things in life you have to work for in order to earn something.
